Guyana Marketing Corporation in collaboration with DIGICEL presents

Agriculture Market Information System

TEXT 1010

This Short Messaging Service (SMS) provides market information on various agricultural crops to farmers and residents countrywide by them texting the name of a commodity to 1010 using a Digicel mobile phone.

Steps to take when texting:

- 1) Go into the message section of the phone.
- 2) Type the commodity you want to get information on for eg. Bora
- 3) Go to the part where you type in the number and type 1010.
- 4) Then press send.

Within a few seconds you will receive a message to your phone with the information requested.

For daily weather reports, text weather and send to 1010.

Is there a 'Help' feature? Yes
How do I access this feature?

Text "Help" to 1010.
A message appears outlining how to use this service.

How much does it cost?

The cost will be five dollars (G\$5.00) VAT inclusive per text message.
